CORD

Our cord products are made using high-quality materials and state-of-the-art machinery, ensuring durability and strength. Our cord products are available in different diameters and colors, providing flexibility and with different filled versatility for different applications.

TAPE

Our tape products are made using high-quality materials and state-of-the-art machinery, ensuring durability and strength. We offer a variety of tape types, including woven tape, bias binding tape, and ribbon, which are available in different widths and colors and versatility for different applications.

SECTORS

Haberdashery crafts

Most Tekiş Lastik products are indispensable products for rubber bands, ribbons, ropes and trim. Tekiş Lastik handmade rubber bands are designed for sewing, DIY, bracelets, jewelry, masks, bags, belts, headbands, seat covers, gift boxes and jewelry.

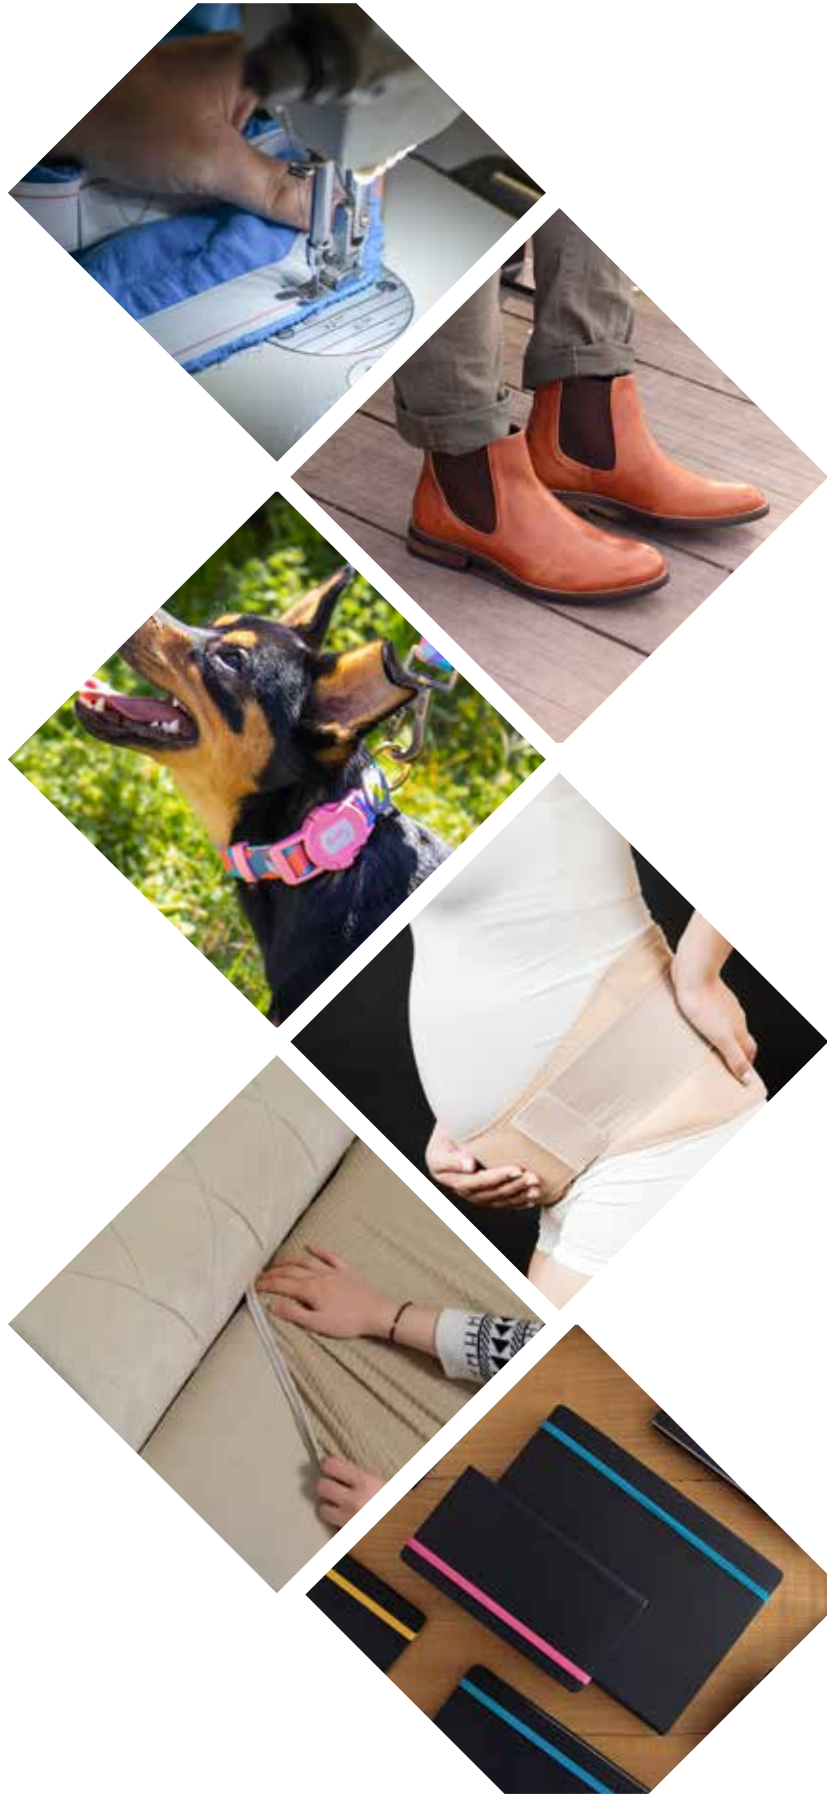

Garment Industry

Elastic and non-elastic narrow fabrics are for binding, joining, fitting the body, adding functionality, aesthetically completing, and embellishing the garments' neckline, armhole, waist, legs, and edges.

Footwear Industry

Therefore, we manufacture narrow woven elastic, braided elastic, and foldovers as side materials and accessories. Thus, we have been producing elastic, foldover, cord, and shoelaces for the shoe industry since established in 1996.

Pet Accessories: Cat & Dog Collars

Also, it provides pet owners not only to play and have good times with their pets but also to gain benefits for the skills they are mutually good at.

Home Textile

Narrow woven, braided elastics, and knitted items are used in most house products, both on the edges and entirely to embellish, trim, close, combine, bind, carry, fix, shape, and provide comfort in usage.

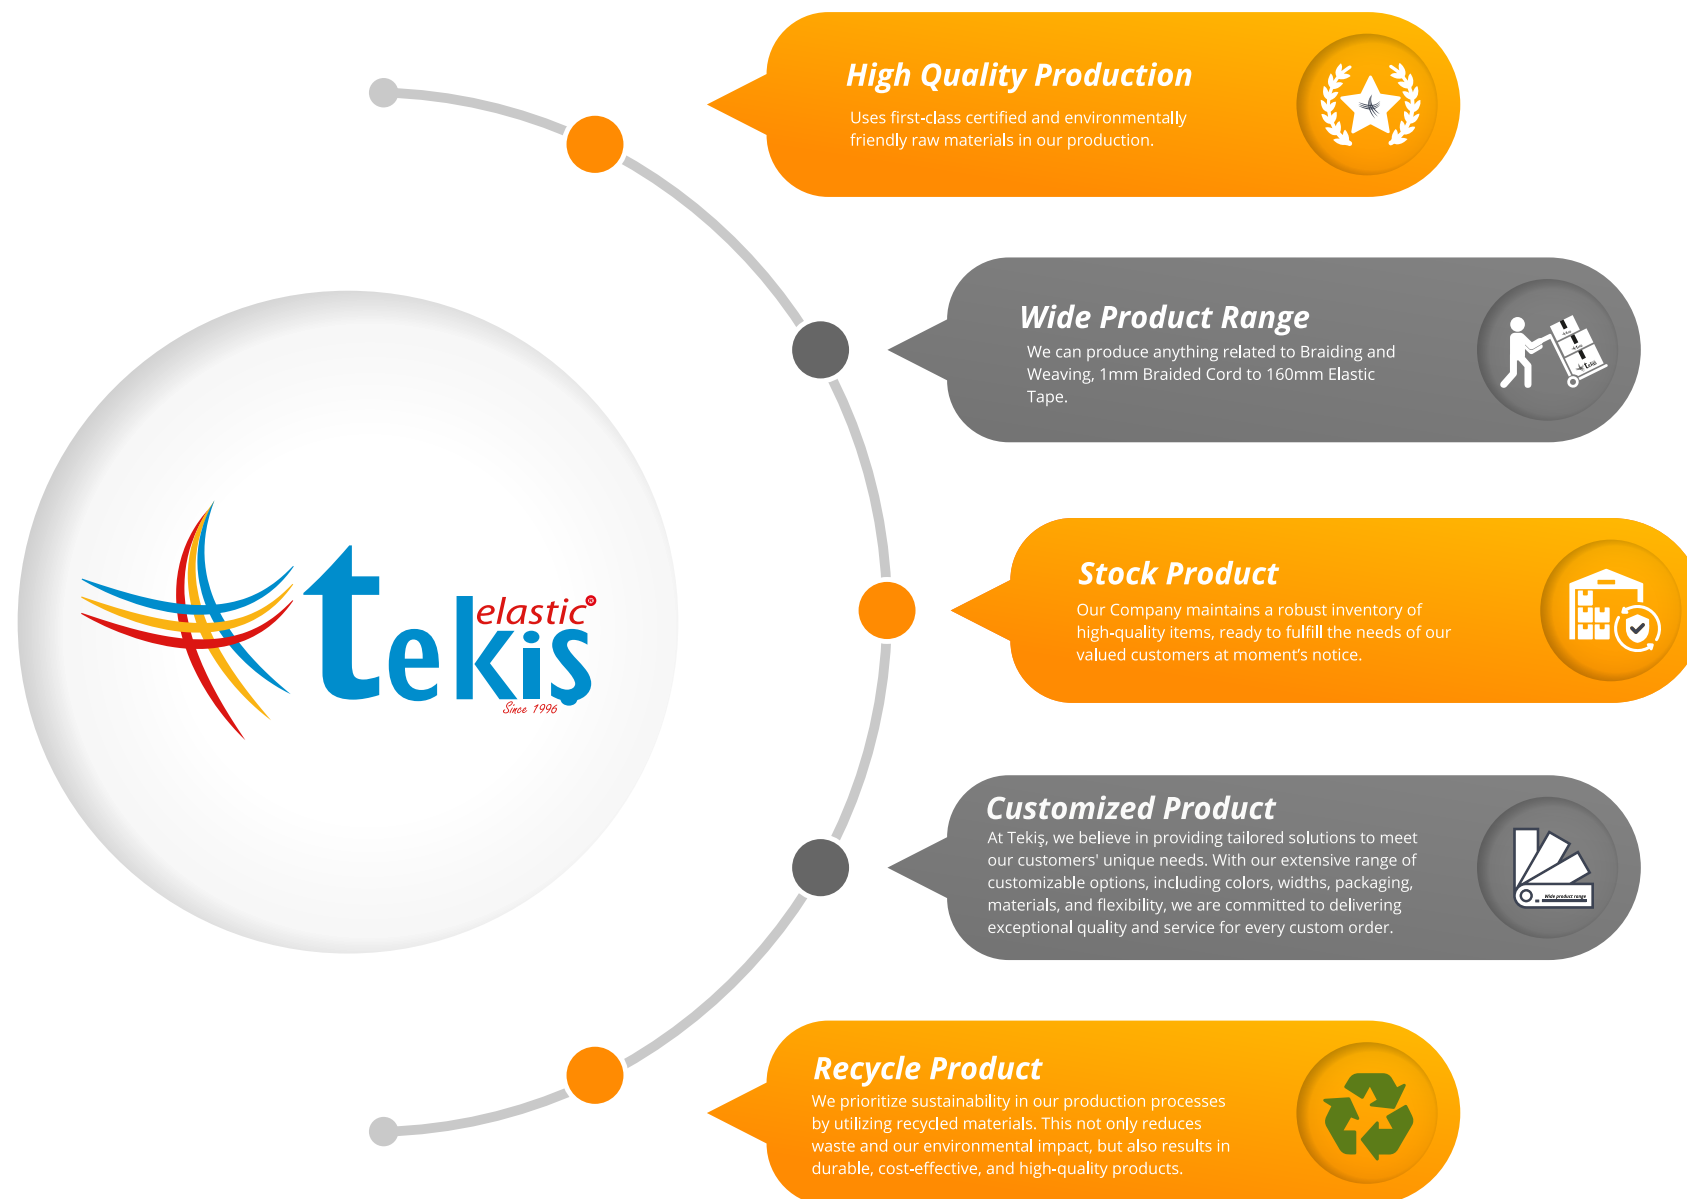

Medical Industry

Medical Industry uses tapes in physical therapy and orthopaedic patients. Tapes are used as connectors, lifters, and carriers in medical devices as lifesaving items. Moreover, it supports the patient's movement, back, wrist, knee, ankle, and binding equipments.

Printing & Promotion

Printing&Promotion industries consist of printing texts and images on materials such as paper, fabric, leather, plastic. Also, it includes the reproduction of printed materials and intertwines with the promotion industry.

INNOVATION

Research and Development

Our commitment to innovation begins with our investment in research and development. We allocate a significant portion of our resources to R&D to ensure that we stay at the forefront of our industry and continually develop new products and solutions that meet the evolving needs of our customers.

Collaboration

We believe that collaboration is essential to innovation. That's why we work closely with our customers, suppliers, and industry partners to identify emerging trends and develop new ideas that will help us stay ahead of the curve.

Entrepreneurial Spirit

We foster an entrepreneurial spirit within our organization by encouraging our employees to take risks, think creatively, and pursue their ideas. We believe that everyone has the potential to contribute to our innovation efforts, and we empower our employees to take ownership of their projects and ideas.

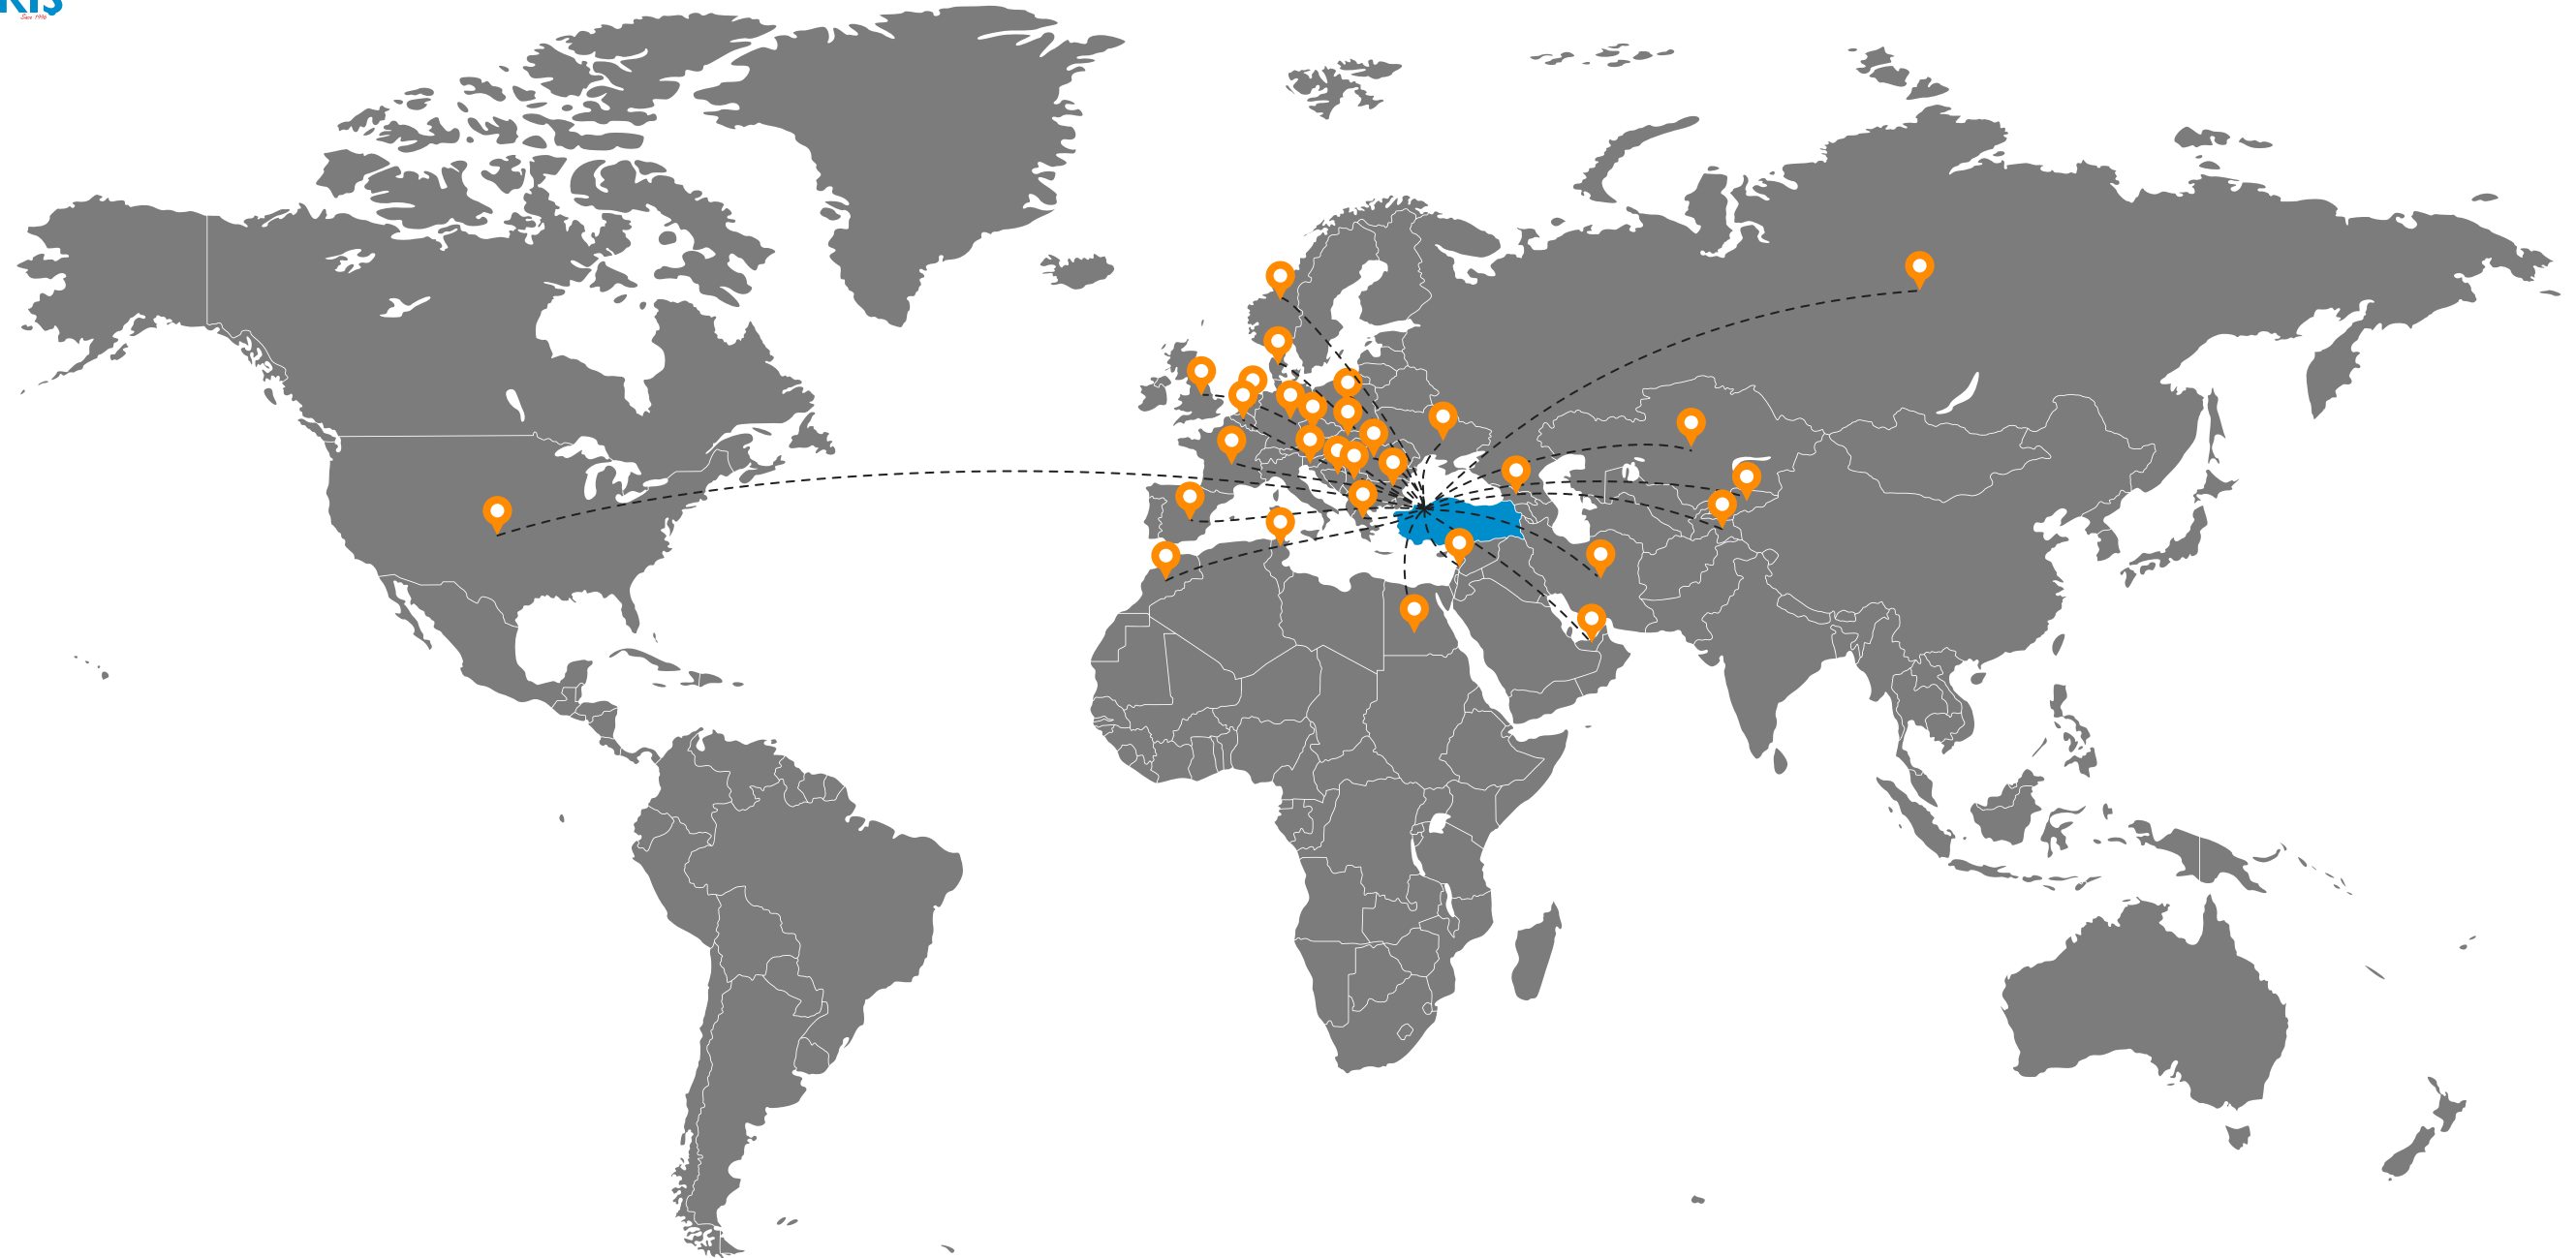

Sustainability

Finally, we recognize that innovation must be sustainable to be successful. That's why we prioritize sustainability in all of our innovation efforts, ensuring that our products and solutions are environmentally friendly and socially responsible.

CERTIFICATION

With more than 40 countries in our export network, we deliver our reliable and durable products to our customers all over the world.
